Going Concern and Management Plans

The Company has earned minimal revenue since inception to date and has sustained operating losses during the nine months ended September 30, 2019. The Company had working capital deficit of \$3,329,922 and an accumulated deficit of \$13,400,551 as of September 30, 2019. The Company's continuation as a going concern is dependent on its ability to generate sufficient cash flows from operations to meet its obligations and/or obtaining additional financing from its members or other sources, as may be required.

The unaudited condensed consolidated interim financial statements have been prepared assuming that the Company will continue as a going concern up-to at least 12 months from the balance sheet date; however, the above condition raises substantial doubt about the Company's ability to do so. The unaudited condensed consolidated interim financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern.

In order to maintain its current level of operations, the Company will require additional working capital from either cash flow from operations or from the sale of its equity. However, the Company currently has no commitments from any third parties for the purchase of its equity. If the Company is unable to acquire additional working capital, it will be required to significantly reduce its current level of operations.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Basis of Presentation and Consolidation

The unaudited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") for interim financial information and the rules and regulations of the SEC and are expressed in US dollars. Accordingly, the unaudited condensed consolidated interim financial statements do not include all information and footnotes required by US GAAP for complete annual financial statements. The unaudited condensed consolidated interim financial statements reflect all adjustments, consisting of only normal recurring adjustments, considered necessary for a fair presentation. Interim operating results are not necessarily indicative of results that may be expected for the year ending December 31, 2019 or for any other interim period. The unaudited condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements of the Company and the notes thereto as of and for the year ended December 31, 2018.

The unaudited condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiaries, Visava Inc. and CannaKorp, Inc. Significant intercompany accounts and transactions have been eliminated.

Accounts receivable

Accounts receivable consists of amounts due to the Company from customers as a result of the Company's normal business activities. Accounts receivable is reported on the balance sheets net of an estimated allowance for doubtful accounts. The Company establishes an allowance for doubtful accounts for estimated uncollectible receivables based on historical experience, assessment of specific risk, review of outstanding invoices, and various assumptions and estimates that are believed to be reasonable under the circumstances, and recognizes the provision as a component of selling, general and administrative expenses. Uncollectible accounts are written off against the allowance after appropriate collection efforts have been exhausted and when it is deemed that a balance is uncollectible. As of September 30, 2019, the Company expects to collect these balances completely and therefore has not created any allowance for it.

Inventory

Inventory is stated at the lower of cost or net realizable value, cost being determined on a weighted average cost basis, and market being determined as the lower of cost or net realizable value. The Company records write-downs of inventory that is obsolete or in excess of anticipated demand or market value based on consideration of product lifecycle stage, technology trends, product development plans and assumptions about future demand and market conditions. Actual demand may differ from forecasted demand, and such differences may have a material effect on recorded inventory values. Inventory write-downs are charged to cost of revenue and establish a new cost basis for the inventory. Inventories mainly consists of work in process (70%) and finished goods (30%). The cost is determined on the basis of the average cost or first-in, first-out methods.

Use of Estimates

The preparation of the unaudited condensed consolidated interim financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed consolidated interim financial statements and the reported amounts of revenues and expenses during the reporting periods. Estimates may include those pertaining to accruals. Actual results could materially differ from those estimates.

Revenue recognition

The Company adopted ASC 606 effective January 1, 2019, using the modified retrospective method after electing to delay the adoption of the accounting standard as the Company qualified as an “emerging growth company”. Since the Company did not have any contracts as of the effective day, therefore, there was no material impact on the unaudited condensed consolidation interim financial statements upon adoption of the new standard. Revenue is recognized when performance obligations under the terms of the contracts with our customers are satisfied. Our performance obligation generally consists of the promise to sell our finished products to our customers, wholesalers, distributors or retailers. Control of the finished products is transferred upon shipment to, or receipt at, our customers' locations, as determined by the specific terms of the contract. Once control is transferred to the customer, we have completed our performance obligation, and revenue is recognized.

Deferred revenue is due to a shipment sent to one of the Company’s distributors. However, since control has not been transferred and the performance obligation has not been completed, revenue has not been recognized and proceeds received are classified as deferred revenue.

Recently Issued Accounting Standards

The Company evaluated all recent accounting pronouncements issued and determined that the adoption of these pronouncements would not have a material effect on the financial position, results of operations or cash flows of the Company.

In August 2018, the FASB issued ASU 2018-13, “Changes to Disclosure Requirements for Fair Value Measurements”, which will improve the effectiveness of disclosure requirements for recurring and nonrecurring fair value measurements. The standard removes, modifies, and adds certain disclosure requirements, and is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The Company will be evaluating the impact this standard will have on the Company’s unaudited condensed consolidated interim financial statements.

In June 2018, the FASB issued an accounting pronouncement (FASB ASU 2018-07) to expand the scope of ASC Topic 718, Compensation - Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. The pronouncement is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. The Company is currently in the process of evaluating the effects of this pronouncement on the unaudited condensed consolidated interim financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). This guidance revises the accounting related to leases by requiring lessees to recognize a lease liability and a right-of-use asset for all leases. The new lease guidance also simplifies the accounting for sale and leaseback transactions. This ASU is effective for annual reporting periods beginning after December 15, 2018 and early adoption is permitted. The Company is currently in the process of evaluating the effects of this pronouncement on the unaudited condensed consolidated interim financial statements.

The Company qualifies as an “emerging growth company” under the 2012 JOBS Act. Section 107 of the JOBS Act provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. As an emerging growth company, management can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The management has elected to take advantage of the benefits of this extended transition period.

Goodwill

The Company tests for impairment of goodwill at the reporting unit level. In assessing whether goodwill is impaired, the Company utilize the two-step process as prescribed by ASC 350. The first step of this test compares the fair value of the reporting unit, determined based upon discounted estimated future cash flows, to the carrying amount, including goodwill. If the fair value exceeds the carrying amount, no further work is required and no impairment loss is recognized. If the carrying amount of the reporting unit exceeds the fair value, the goodwill of the reporting unit is potentially impaired and step two of the goodwill impairment test would need to be performed to measure the amount of an impairment loss, if any. In the second step, the impairment is computed by comparing the implied fair value of the reporting unit's goodwill with the carrying amount of the goodwill. If the carrying amount of the reporting unit's goodwill is greater than the implied fair value of its goodwill, an impairment loss in the amount of the excess is recognized and charged to statement of operations.

Business and Plan of Operations

Cannabis Business-Canada

We are now engaged in the cultivation, processing and distribution of curated cannabis products for the adult-use medical and recreational cannabis market in Canada and, where legalized by state legislation, in the United States. We believe that there is a shift in the public's perception of cannabis from a state of prohibition to a state of legalization. In October 2018, Canada became the first major industrialized nation to legalize adult-use cannabis at the national federal level. Cannabis is still heavily regulated. However, the medical use of cannabis is now permitted in up to 29 countries and many more countries have reformed, or are considering reforming, their cannabis uses laws to include the recreational use of cannabis.

In the 2016 publication by Deloitte, Insights and Opportunities Recreational Marijuana, the project size of the Canadian adult-use market ranged from CDN\$4.9 billion to CDN\$8.7 billion annually. In the 2018 publication by Deloitte, A Society in Transition, an Industry Ready to Boom, the projected size of the Canadian adult-use market in 2019 ranged from CDN\$1.8 billion to CDN\$4.3 billion. The Canadian medical cannabis industry experienced substantial growth since 2014. Health Canada projects the Canadian cannabis market will reach CDN\$1.3 billion in annual value by 2024.

We intend to position ourselves with a core emphasis on co-packaging services to accommodate all consumer-packaged goods required for the sophisticated cannabis market in Canada and internationally. This will integrate cannabinoid research, analytical testing, product development and manufacturing.

Our product manufacturing will include, but will not be limited to the following:

- Cannabis flower pods for vaporizer use
- Cannabis extract pods for vaporizer use
- Cannabis pre-rolls
- K-Cup infused coffee and tea pods
- Infused cannabis beverages
- Infused cannabis edibles
- Infused topical products and CBD wellness products.

Recent Acquisitions

To take advantage of the opportunity resulting from the legalization of adult-use cannabis in Canada, we completed several strategic acquisitions and entered into several significant agreements as follows:

Visava Inc./Canary Rx Inc.

On June 27, 2018, we entered into an Agreement and Plan of Share Exchange ("Exchange Agreement") with Visava Inc., a private Ontario, Canada corporation ("*Visava*"). Visava owns 100% of Canary Rx Inc., ("*Canary*"), a Canadian corporation that operates a 44,000 square foot facility located in Ontario's Garden Norfolk County for the production of cannabis. Canary is a late stage Canadian licensed cannabis producer under Health Canada's Cannabis Act ("Bill C-45"). Canary expects to produce at least 3,600,000 grams of cannabis per year, beginning in the first quarter of 2020.

Pursuant to the Exchange Agreement, we issued to the Visava shareholders an aggregate of 25,500,000 shares of the Company's Common Stock in exchange for all of the issued and outstanding common stock held by the Visava shareholders. In addition to its Common Stock, we issued to the Visava shareholders, prorata Common Stock Purchase Warrants to purchase an aggregate of 25,000,000 shares of our Common Stock at a price per share of \$0.10 for a period of two years following the issuance date of the Warrants. The transactions contemplated by the Exchange Agreement closed effective August 2, 2018. Visava will continue its business operations as our first-tier wholly-owned subsidiary with Canary operating as our second-tier subsidiary.

Liquidity and Capital Resources

At September 30, 2019, we had a working capital deficit of \$3,329,922. We are actively seeking various financing operations to meet the deficit capital requirements.

To date we have relied on third parties to provide financing for our operations by way of private placements. The proceeds may not be sufficient to effectively develop our business to the fullest extent to allow us to maximize our revenue potential, in which case, we will need additional capital.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Critical Accounting Policies

Revenue is recognized when persuasive evidence of an arrangement exists, services have been performed, the amount is fixed and determinable, and collection is reasonably assured.

Other critical accounting policies are described in the Company's Form 10-K for the year ended December 31, 2018.

Subsequent Events

On 8th October 2019, Canary RX Inc ("Canary"), has been granted licenses to cultivate, process and sell cannabis pursuant to the Cannabis Act (Bill C-45). Strategically located just outside of Toronto, ON, Canary RX will begin cultivating cannabis in its 44,000 square foot facility, producing 3600 kilograms annually.

These Standard Licenses enable Canary to produce approximately 3,600kg of dried cannabis flower per year. Canary has curated a bank of 3,500 seeds, comprised of more than 125 strains, including the entire Serious Seeds collection. The Company has the capacity to grow 8 different strains at a time, within the facility's 8 separate flower rooms.

"Canary first applied for a cultivation license under the MMPR (Marihuana for Medical Purposes Regulations) in 2015. Since then, dozens of people in Canary, Target., and our networks worked together to reach this milestone. We're proud of our people, we're proud of our facility, and now, we will focus on our business goals to expand Canary products and presence in our selected markets.", said Randy MacLeod, President & CEO of Canary.

During October and November, the Company issued 4,368,146 shares of common stock as consideration of private placement funds.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Smaller reporting companies are not required to provide the information required by this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (“Exchange Act”), we have carried out an evaluation, with the participation of our management, including the Company’s principal executive officer and principal financial officer of the effectiveness of the Company’s disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were not effective as of September 30, 2019 to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms and (ii) is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Changes in internal controls

No change in our system of internal control over financial reporting occurred during the nine months ended September 30, 2019 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
